

The Presbyterian Church of Danville

July 9, 2022

Dear Friends,

Based on the CDC data released on Wednesday evening, Boyle and Mercer Counties now have high community levels of COVID-19 (state data released on Monday also put us in the high category). Since we have been consistently following the guidance of the CDC throughout the pandemic, we wanted to alert you to this change in the status of our community and the change in recommendations.

The CDC recommends that we wear masks, physically distance ourselves from each other, and avoid indoor gatherings, if possible, to protect those at highest risk of severe outcomes, reduce significant illness, and minimize strain on the healthcare system.

Guided by our COVID-19 Taskforce, we plan to continue worship in the sanctuary for those who are comfortable attending, but encourage everyone to wear a mask and physical distance when you are inside the church buildings. Weather permitting, we will gather outside for fellowship.

If you have any questions, please don't hesitate to contact [John Lacy](#).

Grace and Peace,

Caroline Kelly, Pastor

John Lacy, COVID-19 Taskforce Chair
